Secondary Containment

## Self-Supporting Insta-Berm™

The self-supporting, frameless Insta-Berm™, made of industrial-strength fabrics, is a durable and easy-to-use environmental safeguard. Insta-Berm™ is used in the secondary containment of toxic materials in many applications, to help industries meet today's strict guidelines on environmental protection.

## Features of Self-Support Construction

- Flexible foam struts hold up walls, yet collapse easily when moving vehicle into the container
- Fully collapsible for compact storage and easy transport
- Instant deployment without any tools
- Wide range of sizes available, plus custom-made sizes
- No gate required - fold-down design allows vehicles or mobile equipment to be driven in and out of the berm for storage or washdown
- Can be easily cleaned, folded, and stored for reuse
- Eyelet patches for staking down the berm
- Extremely cost-efficient compared to air-inflated and frame-supported models
- Simple and inexpensive to repair
- Appropriate for waste water, petroleum products, and various chemicals
- Optional Track Belting for driving vehicles into the berm helps the liner last longer!

## Fabric Options

Chem: Chemical resistant fabric

Arctic: Chemical resistant fabric for temperatures to -25 Degrees F (-32 Degrees C)

The self-supporting Insta-Berm™ used for spill containment of hazardous materials

## Applications for Berms

- Chemical transfer
- Tankers and oilers
- Chemical treatment plants
- Industrial maintenance
- Paint factories
- Refineries
- Spill containment
- Oil spill clean-up
- Fuel oil distribution
- Hazardous waste disposal
- Sanitation
- Pumping stations
- Shipping
- Manufacturing plants
- Oil pumping sites
- Vehicle maintenance

See Reverse side for Insta-Berm™ Specifications

The Insta-Berm™ helps companies meet stricter government regulations on environmental protection. Here it is used as secondary containment with the fuel-filled Terra Tank®.

## Mini-Berm™

The Mini-Berm™ is an ultra lightweight and convenient spill tray for clean-up operations and spill containment during fuel and chemical transfer. Mini-Berm™ trays are easily placed under valves and fittings, trucks, and machinery. Totally reuseable and compact, the Mini-Berm™ withstands most liquids and is designed to take standard size sorbent pads. Twelve sizes of Mini-Berm™ trays are available, with custom sizes available upon request.

## Features

- Lightweight and compact for easy storage
- Extremely durable
- Chemical resistant
- Inexpensive

Mini-Berm™ used under a valve for spill clean-up
