

# The Fireflex Firefighter™ Advantage!

## 4-Stroke Engine Benefits

- longer engine life (3600 vs. 7000 RPM)
- less maintenance
- superior reliability
- better suction lift performance
- uses gasoline - no oil mix
- 18% power reserve for high altitude operations - (2-stroke engines drop 4.3 PSI per 100 RPM)

## Superior Cost Efficiencies

- Competitively Priced
- Longer Engine and Pump Life
- Reduced Maintenance
- Greater all-around performance

## Environmentally Sensitive

- Only 75 Dba
- Meets C.A.R.B. requirements
