

Heli 200 & 300™

Helicopter Slung Tanks for Water Supply

Description

The Heli 200 & 300 helicopterable tanks are designed for water delivery to ground crews in areas with steep slopes and limited water resources.

Specifically designed for the Bell 205 or equivalent helicopters, the Heli 200 & 300 can be secured by a sling around a tree or stump and attached to two large 'D' rings on the uphill side. Both models have a 4" (102 mm) filler and a 1-1/2" (38 mm) discharge complete with 1-1/2" ball valve shut-off.

The harness is constructed of heavy duty tie-down webbing and the tank is made of rugged vinyl coated nylon fabric.

Features

- Durable and rugged fabric which is mold and mildew resistant
- Compact for easy storage
- Low maintenance: easy to clean and repair

All Fireflex Aerial Products are available in potable grade fabric.

The Heli 200 & 300 are ideal for delivering water to ground crews in remote areas.

Specifications

Model	Heli 200	Heli 300
Weight Filled	2026 lb. 919 kg	3100 lb. 1406 kg
Collapsed Dimensions	27 x 29 x 8" 69x74x20 cm	30 x 32 x 11" 76x81x28 cm
Filler	4" (98 mm) cap	
Discharge Hose	1.5" (3.8 cm) hose	
Weight Empty	25 lb. 11.5 kg	35 lb. 16 kg
Capacity	240 USG 909 L 200 Imp. Gal.	360 USG 1364 L 300 Imp. Gal.
