

# Hose Caddy™

## Description

The Hose Caddy is a lightweight telescopic aluminum tripod stand designed to support a large diameter hose when filling and draining a self-supporting, open top tank.

The Hose Caddy collapses for easy storage in tight spaces.

The Hose Caddy supports the weight of the hose when filling and draining the tank. Keeping the heavy weight of the hose from resting on the side of the floatation collar saves time and water.

## Features

- Light weight Aluminum construction
- Collapsible Telescopic design
- Sturdy Tripod style frame
- Reduces wear and tear on tank
